## The Walk

**1.** At corner of car park go through gate signed Pen-y-cloddiau. Take the right-hand forest track for a few metres and then bear right onto a narrow path along the forest edge, following Offa's Dyke Path (ODP), signed with a white acorn. Continue up this path until you reach a stile on the right. Cross onto the open moorland and continue to follow ODP over Pen-y-cloddiau hillfort. From the summit follow the stone path northwards (towards mast), crossing a stile and continuing to follow ODP for about 1km.

**2.** At a pass crossed by unsurfaced green lanes turn sharp left onto a track leaving ODP and ignoring stile/gate right. Go through a gate and continue ahead at track junction. Follow this clear track for about 2.5km, going through 6 gates, before reaching a road. Turn left onto the road.

### For a shorter route:

*100m up the road turn left onto a forest track beside a yellow and black barrier. Follow this track uphill back to Llangwyfan car park.*

**3.** Follow road round to right for about 150m and, just after crossing a stream, turn right onto a track (horse rider sign). Go through a gate and follow the path behind a partly built house. Continue on path that contours around

*Corheddyd y waun  
Meadow pipit*

the hillside for about 2km, going through 4 gates. After the fourth gate follow the path as it bears right, keeping fence on right. Go through another gate then continue to follow the clear path along the hillside until you reach a final gate onto the road. Turn left and walk up the road to the small car park below Moel Arthur.

**4.** From the car park turn left to rejoin ODP, signed Coed Llangwyfan. Continue on ODP around the base of Moel Arthur hillfort. (Detour left at the stone waymarker, to climb up to the hillfort). Continue on ODP across the moorland. Cross a stile into fields and walk downhill, still following ODP. Cross another stile and continue down towards the road. Cross the stile then turn right along the road and left back into Llangwyfan car park.

*Codwyd bryngegyrdd Penycloddiau a Moel Arthur yn ystod Oes yr Haearn, rhwng tua 800CC a 430C, dros 2,500 o flynyddoedd yn ôl. Aneddiad wedi'i amddiffyn oedd bryngaer. O gwmpas y clystyrau o dai pren roedd rhagfuriau, sef cylchoedd o gloddiau a ffosydd. Yn aml iawn roedd ffens bren, a elwir yn balisâd, ar ben y rhagfuriau. Adeiladwyd y bryngegyrdd ar ben bryniau er mwyn cael gweld ymhell.*

*Penycloddiau yw un o fryngegyrdd mwyaf Cymru. Yn ddiweddar, darganfuwyd yng nghanol y fryngaer beth all fod yn 33 o lwyfannau cytiau (sef y seiliau gwastad yr adeiladwyd y tai crwn arnynt). Er bod Moel Arthur yn llai o lawer mae yma ragfuriau mawr a thrawiadol ar yr ochr ogleddol.*

*Pen-y-cloddiau and Moel Arthur hillforts date to the Iron Age, around 800BC to 43AD, over 2,500 years ago. Hillforts were defended settlements made up of rings of banks and ditches, called ramparts, that encircled groups of wooden roundhouses. The ramparts were often topped with a wooden fence called a palisade. They were usually built around a hilltop, which means they could see and be seen for many miles.*

*Pen-y-cloddiau is one of the largest hillforts in Wales. Recently 33 possible hut platforms (the level base on which a roundhouse would be built) have been found in the middle of the hillfort. Although Moel Arthur is much smaller it has extremely large and impressive ramparts on its northern side.*
